Booking & Administration

The screenshot shows a web browser window displaying an Eventbrite event page. The browser's address bar shows the URL: <https://www.eventbrite.co.uk/event/8057319687>. The page title is "Sustainable Living: Log Gasification Boiler, PV and much more!". The event is organized by "Cumbria Action for Sustainability" and is scheduled for "Friday, September 20, 2013 from 5:30 PM to 7:30 PM (BST)" in "Glassonby, United Kingdom".

The page features a "Ticket Information" table:

Ticket Information		
TYPE	END	QUANTITY
Standard	Ended	Free

Below the table, there are social sharing buttons for "Share", "Tweet", and "Like". The "Event Details" section includes a description: "See the Beck Cottage Gasification Wood Burning Boiler in action and discover the ins and outs of producing or buying fuel for it. See the wood drying facilities. Look at the solar PV installation and various other projects constructed from scrap and re-use materials." It also provides "DIRECTIONS & PARKING" information: "The postcode (CA10 1DX) will take you to the farm opposite, at the point where you would go up to the farm turn left over the bridge and we are 70m up the hill (solar panels on the roof). Park on the grassy verges along side the beck just before the bridge, there is some space in the wood yard next to the house and in front of the house, if you can't see a space stop by the house and we will direct you to more space."

The "When & Where" section includes a map showing the location of "Beck Cottage, Glassonby Beck" and the address "CA10 1DX Glassonby, United Kingdom". The event date and time are repeated: "Friday, September 20, 2013 from 5:30 PM to 7:30 PM (BST)". There is a link to "Add to my calendar".

An orange banner with the text "Eventbrite" is overlaid on the right side of the screenshot.
